

Featured Cat

George

George is a mellow and inquisitive boy who knows his name and comes when you call him. He loves to watch out the window and is very curious about "outside." He is not a lap cat but does enjoy company. Perfect for someone looking for a low-maintenance forever friend.

This is one tall cat! George looks a bit like Tom from "Tom and Jerry." He used to be a hunter in his younger years. While he is fairly laid back, he is better suited to a household without young children. He likes to be petted on his own terms and be respected for the independent kitty that he is.

Age: 4 years

Sex: Male
