austin pets alive!

APA is a 501(c) 3 (nonprofit) organization with a dual purpose:

1. provide the services needed to save the lives of the thousands of pets killed every year at city shelters;
2. prevent them from getting there in the first place.

in
Central Texas

**austin
pets
alive!**

Promoting and providing the resources, education and programs needed to eliminate the killing of companion animals.

austin pets alive!

We need financial support from generous donors to continue to save lives. Without APA saving these animals, they would be dead and Austin would lose its coveted no-kill status.

Our success is due to the creation and implementation of unique programs that save the "hardest to save" animals—these are the animals that were historically killed year after year before APA began to serve the Austin community. These programs serve groups of animals like orphan kittens, puppies with parvo virus, critically injured pets, geriatric animals, behaviorally challenged dogs, barn cats, and animals with skin infections. These programs are costly but yield a high rate of success.

- APA takes in every single unweaned kitten that comes into the Austin Animal Center, costing on average \$75 per kitten.
- APA takes every dog with parvo from the Austin Animal Center, at an average cost of \$370 per dog.
- Each month, APA incurs ~\$30,000 in expenses for special medical cases.

austin pets alive!

Austin Pets Alive! has saved the lives of over 16,000 Central Texas animals since 2008.

Our intake levels grow year-over-year, which helps Austin maintain its status as the largest city in the U.S. to reach a 90%+ live outcomes rate and achieve no-kill status. Our mission is to achieve a 100% live outcome rate for all saveable pets—we need your support to accomplish this goal.

APA maintains low overhead and administrative expenses, making our operating costs lower than other shelters of our size.

We can't do it without your help!
